PRODUCT OVERVIEW

Go beyond expectations for on-and-off-road performance with the i509-WRA-JL, made for the music-loving outdoor weekender.

PRODUCT FEATURES

Designed for Jeep® – The display is housed in a Jeep® -specific trim bezel that emulates the look and feel of the Jeep® dash. A Jeep® -specific harness is included with the receiver to take out the guesswork during installation and make it a true plug-and-play solution. The weather-resistant display features a Jeep® -specific opening screen and LED color scheme for a consistent design with factory Jeep® settings.

Next-Gen Tech - Features Apple CarPlay®, Android Auto™, and built-in Bluetooth® hands-free which allow access to music, messages, phone calls, and maps on a smartphone via either a wired USB connection or wirelessly. Get even more entertainment options with built-in HD Radio®, Pandora Internet Radio (via iPhone or Android connection), and SiriusXM®.

Hi-Res Audio – Experience incredible music detail with Hi-Res Audio Playback. High-precision music reproduction brings out the full potential of every song and makes every drive feel like an intimate recording studio session with your favorite artist. Access your favorite songs on popular Hi-Res streaming services like Apple Music, Tidal, Amazon Music HD, and more. The i509-WRA-JL plays Hi-Res music at its intended spec of 96kHz/24Bit via a wired USB connection to a smartphone or wirelessly through Bluetooth connection (*requires LDAC compatible device*). You can also purchase and download Hi-Res music files onto a USB drive from platforms like HDtracks and plug directly into the receiver for Hi-Res playback.
